

Complete contact for insertion of the  
economy resistor for contactor range  
from 1250 up to 2000 A.

mark	designation	code	brisch nr
	complete contact for insertion of economy resistor (without arc-blowout coil)	90 525	44 532 075
1	fixed arc-blowout horn	94 039	35 640 019A
2	insulating support	60 383	37 625 025
3	support for moving part	60 384	35 518 007
4	support	60 381	35 780 113
5	left and right pole part	60 382	33 626 009
6	brake washer	60 388	35 731 002
7	moving contact in silver	94 116	36 243 015
8	moving arc-blowout horn	94 041	35 660 013
9	contact spring	94 044	35 811 028
10	blowout cage (asbestos free)	94 145	41 423 028

see overleaf

**contact for insertion of the economy resistor  
for CBA-CBC-CEX 1250 up to 2000**

mark	designation	code	brisch nr
11	spring axis	60 385	31 348 025
12	spring guide	60 386	35 710 007
13	complete control lever	60 387	
14	supple connection	94 092	36 113 014
15	fixed contact in silver	94 124	36 245 012
16	arc-blowout coil 6 A	95 825	38 434 009
	arc-blowout coil 40 A	C 0150	38 442 019

For a voltage of control circuit which is higher than 48 V, choose arc-blowout coil 6 A.

For a voltage of control circuit which is lower than or equal to 48 V, choose arc-blowout coil 40 A.
